

A 2012 TRANSFORMATION AWAITS!

It's in this Simple Understanding . . .
**The Cause Of Any Disease According to Ancient
 Medicine has *ONLY ONE ANSWER* . . .**

Firstly though please understand I am an optimist and DO NOT shoot the messenger!!!!!!

For those who have been a part of the clinic for a while, you have heard or are in the understanding of this simple but Universal Truth.

i.e. **The Cause Of Any Disease According to Ancient Medicine has ONLY ONE ANSWER . . .**

As the caption says in the above picture – you can focus on the rocks i.e. symptoms like pain, tiredness, IBS, or whatever the sign or symptoms you may have of ill health or you can be the guiding light by understanding that from an Ancient Medicine perspective *The Cause Of Any Disease is Known as The Mistake of the Intellect.* Or put another way - the way you think – your **SABOTEURS!!!**

Once understood you can then guide others along the path. A path that many don't want to tread. It takes responsibility, it takes resolve, it takes dedication, it takes pulling apart who you think you are, it takes commitment, it takes humility, it takes trust . . .

Everyone has a choice and most take the easy way out . . . do a little for a few months and think they have tried, do nothing or blame or want it done for them or put it in the tooooooo hard basket.

In the book 'Power verses Thought', the author David Hawkins suggests **if you can change one thing about yourself in a positive manner you can uplift 150,000 other people around you.** What an inspiring and interesting thought!

It's one of the main Philosophies I talked about on stage to other Wellness Professionals. Because I know I can help those who come into the Centre, who stick with us . . . one by one making it a slow but rewarding process. However if I could teach my colleagues this life changing intent, then collectively, together we could change millions. And for the 7 or so years I took this message all over Australia and New Zealand, millions of lives hopefully were changed.

'As I see it, every day you do one of two things: build health or produce disease in yourself.'

Adelle Davis

(Continued from Page 1)

It's called morphogenetic resonance. Morphic resonance is a term coined by Rupert Sheldrak in his 1981 book *A New Science of Life*. He has his skeptics, like all people who have different thoughts. Like Einstein, Galileo, Newton, all were scorned when they first discussed in public their theories.

However, morphic resonance suggests that if we collectively can be better people, then that can influence others in a positive light.

Hawkins suggests 150,000 others can be positively affected.
Of course the opposite can occur as well.

Today unfortunately, our collective thought is more about pessimism, therefore what we see happening around the world is the end result of that collective – equalling the undeniable pessimistic actions of the majority. The 80/20 rule. You can see it happening around you . . .

*Its called morphogenetic resonance. Morphic resonance is a term coined by Rupert Sheldrak in his 1981 book ,
"A New Science of Life"*

- 1. First locally,- breaking and entering of private homes. Local schools vandalised. Elderly victimised, Local shops notoriously robbed, vandalised and the want to hurt. Teenage drinking and abuse. Alcohol, drug abuse and sex abuse. Most of our youth don't truly understand what the word moral means.**
- 2. Secondly our State / Country – Governments with no accountability – my suggestion – no government leader should be allowed to lead if they haven't been in small business. No person in Government should EVER be able to make a decision on business if they haven't owned their own shop / small business. Most of our Pollies finish high school, go to tertiary education then go into Politics, with no idea how the real world operates. Governments are stifling small business with bureaucratic red tape, taking away responsibility of the masses and are not being held accountable, therefore blowouts / deficits unsurpassed in our history. Creating mass fear and apprehension. This is seen in Real Estate plummeting, Share markets going south and there doesn't seem to be a safe place to invest anymore. **Hot off the press – from our local radio station – Myer is considering downsizing its stores in 2012. Most small businesses / retail are struggling in Australia.****
- 3. Lastly Globally – Because of 1 and 2 above, there are mass riots everywhere / suicide bombings. Nearly all of Europe in mass deficits (PIIGS). Also America is being torn apart. Global share markets, real estate etc dive-bombing faster than a speeding bullet. And they say Australia is going to miss out. Phooey to them I say!!!**

Collectively our thoughts have passed the tipping point of no return to the negative. Therefore it's possible all markets may be negatively affected in the future. My August Newsletter article discussed this in greater detail. To refresh your memory or if you didn't get to read it please go back and check it out. **Watch out for the roller coaster in 2012.** In my wealth talk back in 2008 (Actually I was predicting this back in 2006 to my private coaching groups) I pre-warned all of this and luckily a percentage listened. And for those who did ,what an opportunity now waits.

Mia The Philosophising Feline . . .

It's 2012 and everyone is talking about New Year's Resolutions. This being my first New Year within the Centre's Newsletter, I thought I would reflect. As we all know Baxter has left planet earth and is probably having a dog-gone good time in heaven. I thought I'd have a look at some of Baxter's articles and this one I feel is very appropriate for what may be install for us in 2012. And remember I'm an optimist.

From Baxter . . .

"One day a farmer's donkey fell down into a well. The animal cried piteously for hours as the farmer tried to figure out what to do. Finally, he decided the animal was old, and the well needed to be covered up anyway; it just wasn't worth it to retrieve the donkey.

He invited all his neighbors to come over and help him. They all grabbed a shovel and began to shovel dirt into the well. At first, the donkey realized what was happening and cried horribly. Then, to everyone's amazement he quieted down.

A few shovel loads later, the farmer finally looked down the well. He was astonished at what he saw. With each shovel of dirt that hit his back, the donkey was doing something amazing. He would shake it off and take a step up. As the farmer's neighbors continued to shovel dirt on top of the animal, he would shake it off and take a step up.

Pretty soon, everyone was amazed as the donkey stepped up over the edge of the well and happily trotted off!" **Moral of the story . . .** In 2012 life may shovel dirt on you, all kinds of dirt. The trick to getting out of the well is to shake it off and take a step up. Each of our troubles is a stepping-stone. We can get out of the deepest wells just by not stopping, never giving up! Shake it off and take a step up. Thanks Baxter your writing still rings true. Here's what Bob Marley said, "Truth is, everybody is going to hurt you; you just gotta find the ones worth suffering for."

Five simple rules to be happy:

- Free your heart from hatred - Forgive.
- Free your mind from worries.
- Live simply and appreciate what you have.
- Give more.
- Expect less.

Have a Purrfect 2012....See you next month.....Mia.....Purr.... Purr.....

Luckily though you are reading this Newsletter because you have made a choice. The first choice is to look at one's HEALTH. Take on a Health Coach. Get someone to get you to focus with clarity on how you can possibly improve your health.

The 80 percenters want to put their head in the sand. They don't want to find out if their liver is not well, their brain is not functioning properly, their bowel is clogged or whatever is going on. I personally would rather find out so that I can then fix the problem. Putting one's head in the sand is what most do – especially men.

Through testing, I know where I have started and I know where and how I am going. With future tests I know how much more I have to do – if any - except maintain. **My best advice is to understand Ancient Medicine's Wisdom i.e. The answer is understanding how you think.** Find out your saboteurs, pull your saboteurs apart and know them well. For when you do they then have a tendency to leave.

Once understood and that trait / saboteur has left you, from an Ancient Medicine understanding so can the illness or disease. **From Health comes Wealth.**

Today there are many Researchers and Scientists revealing this simple truth. Bruce Lipton PhD is one such author and the book "Vernetzte Intelligenz" written by By Grazyna Fosar and Franz Bludorf is another. However, it's written in German. To read more about the book please go here <http://wake-up-world.com/2011/07/12/scientist-prove-dna-can-be-reprogrammed-by-words-frequencies/> The heading reads "**Scientists Prove DNA Can Be Reprogrammed by Words and Frequencies.**" And there are many more proving Ancient Medicine's wisdom.

But please remember, as I have written on many occasions, from the *German philosopher (1788 - 1860) Arthur Schopenhauer . . . "All truth passes through three stages. First, it is ridiculed. Second, it is violently opposed. Third, it is accepted as being self-evident."* All the above, now famous Philosophers were all firstly ridiculed. Galileo was nearly burned at the stake for his truth. WikiLeaks founder Julian Assange would be an example of someone today trying to expose truth but those in POWER don't want truth brought to the surface.

Yes 2012 will be an interesting year.

It will be full of surprises, it will be heart-wrenching at times, it awaits the brave, it will fulfill your dreams, it will stand as a year to test your resolve. Find out your saboteurs, find out where your health is or is NOT. Find out who you are and find out so that you can be one of the 20 percenters, with optimism transferring those positive intentions so that one day the negative influences that NOW plague us can once again leave us.

Your choice . . . choose wisely.

But I ask you in 2012 PLEASE choose something?

As mentioned many times before, within articles to magazines / this Newsletter, from the stage and one on one – **Health in the future will be more sought after than gold, silver, real estate or shares.**

Have a great month.....Regards.....Wayne

ARE YOU TAKING CARE OF YOUR EYESIGHT?
TIPS FOR BETTER EYE HEALTH

Looking after our eyes—it is one of the most important things we should do as our eyesight has a huge impact on the quality of our life. However, sometimes we tend to overlook Eye Health. Many eye diseases or disorders are difficult to or cannot be cured once they begin to develop; so taking care of our eyesight is essential for our future.

There are a number of ways we can assist our eyes and we need to remember that prevention methods are better than possibly using medicines or having surgery. The health and proper function of our eyes, as with the other organs of the human body, is often determined by our dietary intake of the correct vitamins, minerals and nutrients. Also eye exercises and relaxation methods can play a significant part in good eye health.

Some eye diseases associated with poor nutrition are:

- **Diabetic Eye Disease**
- **Glaucoma**
- **Cataract**
- **Night Blindness**
- **Dry Eye Disorder**

Taking care of our eyesight from an early age may play an important role in the quality of our life in the future.

The above disorders may be helped by eating correctly to protect our eyesight. The foods and supplements to include which may be beneficial are of course, carrots and other orange vegetables like pumpkin and sweet potatoes; your green leafy vegetables; eggs; avocados, parsley, marjoram, ginger and garlic; grapes; berries such as blue-berries, raspberries, strawberries . ***From an Ancient Medicine perspective the eyes are governed by the liver so herbs that assist the liver will be beneficial for your eyes as well.*** Herbs like silymarin, eye-bright, dandelion, gotu kola, ginkgo biloba and bilberry can be taken in herbal extract form and some are available in supplement form. Also your omega 3's, krill oil and flaxseed oils are very good as they protect the cells of your eyes; and Vitamins A, C and E. Remember to keep up your water intake of at least 6-8 glasses per day for clearer and more lubricated eyes.

A common eye disorder of today's society is **Dry Eye Disorder**. The increase in this disorder is found amongst people who use computers regularly. People that use computers daily tend to stare intensely at the screen and the natural rhythm of blinking is slowed right down. Blinking helps to lubricate the eyes and dry, itchy, red or burning eyes can result with lessened blinking. It is a good idea if you are a regular computer user to practice deliberate blinking whilst working. Each time, make sure that you close your eyes so that you can't see and keep them closed for just a second. The eye needs to blink about 12 times per minute.

A tried and tested remedy for itchy, sore eyes is also taking the time to relax with a tepid, moist chamomile tea bag on each eye for about 10 minutes. Chamomile has wonderful anti-inflammatory properties.

If you feel your eyes need a little nutritional boost, speak to Wayne at your next appointment and he will discuss which herbs or supplements may be right for you and your eyes.

INSPIRATIONAL QUOTE OF THE MONTH

“Change the way you look at things and the things you look at change.”

~ Wayne W Dyer

Salmon Rice Salad

Ingredients:

- 1 cup basmati rice
- 150 g fresh salmon fillet
- 60 g snow peas
- 4 asparagus spears
- 6 basil leaves, torn
- 2 teaspoons olive oil
- 2 teaspoons rice wine vinegar
- 2 teaspoons Organic soy sauce

Method:

1. Cook rice in simmering water until tender, stirring occasionally. Drain and refresh under running cold water .
2. Steam the salmon until cooked and let cool. Coarsely shred the salmon into bite size pieces and put aside.
3. Blanch the snow peas in simmering water. Refresh and put aside.
4. Cut tough stalks from the asparagus spears and blanch the spears in simmering water, refresh and put aside.
5. Add basil leaves and toss all the ingredients together in a bowl and then dress with oil, vinegar and soy sauce.

THE POSITIVE ATTITUDE ZONE

Introducing a new section for the back page of our Newsletter — ***The Positive Attitude Zone***. Each month we will bring you an inspirational, positive attitude tip to apply to your life. A positive attitude is so very important for success in all areas of your life. Bringing further clarity to Wayne’s Main Article on the first page.

JANUARY’S TIP: *Wake Up Early* (Good place to start)

How many of you would agree that getting an early start to the day generally creates a day in which you achieve much more, lending itself to an attitude of positivity and a feeling of accomplishment?

By waking early, you can enjoy doing something for yourself to begin the day like meditating, exercising, or reading. It is also a great time to get a head start on things—often without interruption and you can tick the items off your to-do list very quickly.

If you have time the night before—plan the next day as best as possible, making a list of what you need to do. You’ll find planning seems to allow you to attend to everything much more efficiently; your day has purpose and you’ll finish the day with an awesome feeling of achieving what you set out to do. A little organisation goes a long way!

Even jot down what you plan to eat throughout the following day as this really helps you to keep on track with your healthy eating habits.

Wake up early, rise with a purpose and enjoy every moment of the day!

Waking up early allows you some time for yourself to meditate or exercise—starting the day in a positive way!
